This scrub-a-dub is also packed with orange peel powder that is high in vitamin C, aspen bark, and jojoba oil to add healing benefits to your skin. Say bye to blemishes and hi to smooth skin! Calendula flower and Cornflower petals not only add a dreamy spa experience, but also have anti-inflammatory properties. Reach for this scrub, and get down in the tub when you want to feel your softest, and look your glowiest (aka all the time).

Pit Police™

Pit Police™ is a 100% natural and aluminum-free creamy deodorant paste without any nasty chemicals. Our deodorant stick is a wholesome blend of arrowroot powder, moisturizing shea butter, vegan wax, and a mix of essential oils to help you win the battle against B.O. All this goodness while being gentle on your skin! It comes in a biodegradable push-up paperboard tube. This perk scores you two different deo tubes in funky fresh Lemongrass-Mint and Rosemary-Cedar.

Packaging & Sustainability

Being eco-conscious and supportive of mama earth is a big priority for us. We also believe that packaging is just as important as the product itself and put a good deal of thought into what we use. We choose recyclable and biodegradable options over plastic as much as we can.

Our 100% biodegradable boxes are handmade from lokta paper in Nepal. Lokta paper is made from the daphne shrub, a sustainably grown and harvested plant using a very special and traditional papermaking process. It also ethically supports the artisans that create our boxes and farmers that harvest the shrub. Under the right conditions, lokta paper has the ability to sprout!

Our deodorant push-up tubes are made from paperboard which is also 100% biodegradable. Our deodorant, mask, and brow pomade jars are packaged in glass for durability with recyclable plastic lids.
